SUMMARY

Associate DevOps Engineer with 1+ years of experience cutting a 60-second Jenkins branch-load down to near-instant and migrating CI/CD across 9+ enterprise platforms with zero downtime. Hands-on with Jenkins (Declarative & Scripted Pipelines, Shared Libraries), Docker, Git/GitHub/GitLab, AWS, Terraform, and Kubernetes — with a track record of embedding security scanning (Black Duck, Fortify) and Pipeline-as-Code directly into release workflows.

EDUCATION

National Institute of Technology, Srinagar

Bachelor's Degree in Information Technology
2021 – 2025

SKILLS

- CI/CD: Jenkins (Declarative & Scripted Pipelines, Shared Libraries), GitLab, GitHub, CI/CD, Groovy
- Containerization: Docker, Docker Compose
- Cloud: AWS (EC2, S3, IAM, VPC, Cloud-Watch)
- Infrastructure as Code: Terraform
- Orchestration: Kubernetes
- Artifact Management: JFrog Artifactory
- Version Control: Git, GitHub, GitLab
- Programming & Automation: Python, Bash, REST APIs, Webhooks, SCM
- Linux administration and shell scripting

CERTIFICATIONS

- AWS Certified Cloud Practitioner

PROFESSIONAL EXPERIENCE

Associate DevOps Engineer

Sutherland | July 2025 – Present

- Migrated CI/CD for 9+ enterprise platforms from Tracfone to Verizon Jenkins with zero downtime
- Integrated Black Duck & Fortify security scans into pipelines across 6+ platforms
- Converted legacy pipelines to Pipeline-as-Code (SCM) for 4 platforms, improving rollback control
- Built a GitHub webhook (PR event) integrated with Jenkins to auto-detect merge conflicts and flag conflicted file names in real time
- Optimized Jenkins branch-selector via GitLab API pagination, cutting load time from 60s to near-instant
- Resolved dev-to-prod pipeline issues via Slack, coordinating fixes with app teams to unblock releases

PROJECTS

Profile App – End-to-End Jenkins CI/CD Pipeline

Full-stack app (Node.js, React, MongoDB) containerized with Docker Compose and deployed to Kubernetes; built a Jenkins pipeline to build, push, deploy, health-check, and email notification on every release.

Jenkins Webhook PR Conflict Detector

GitHub webhook-triggered Jenkins pipeline that auto-detects PR merge conflicts using the GitHub API and flags the exact conflicted files.
